## **Exercise 2: Direct Connectivity From Power BI Service**

- 1. Start with the pbix file you created in the previous exercise.
- 2. Use the **Publish** button to publish the report. Sign in using the account you used to sign up for Power BI service.
- 3. Go to **http://www.powerbi.com** and sign in using your account.
- 4. Go to the newly created dataset and edit the credentials required.
- 5. Enter the following information and click **Sign in**.
  - Login: PBILogin
  - Password: P@ssw0rd
- 6. Go to the newly created report. You should already have a card visualization for the Revenue and a slicer for the Year.
- 7. Create a chart based on the **Card** visualization.
- 8. Drag the **Units** field from the **salesFact** table to the chart.

## Lab Question

4.0/4.0 points (graded)

Select year 2015 from the slicer and review the card visualization. What is the total Units for the year 2015?

11M

222K

|   | Suk  | omit You have used 1 of 3 attempts |

- 1. Save the Report and give it a name.
- 2. Notice that you do not have to refresh this report, because it uses a live connection (DirectQuery) to the Azure SQL database, and always up-to-date.
